

## Ablauf bei Schlepp-Aufträgen

## Während des Einsatzes:

Aktuellen Status auswählen

The status selection screen shows a grid of status options. The user selects 'Zur Einsatzst.' (To deployment) from the first row. The second row shows 'An Einsatzst.' (At deployment) selected. The third row shows 'Zum Ziel' (To destination) selected. The fourth row shows 'Am Ziel' (At destination) selected. The fifth row shows 'Rückfahrt' (Return trip) selected. The sixth row shows 'Erledigt' (Completed) selected.

Vorschäden markieren

The 'Vorschäden markieren' (Mark pre-damage) screen shows a top-down diagram of a car. The user can mark specific areas of the car for damage.

## Auftrag erledigen:

The final steps of the task completion process involve a confirmation screen and a signature screen. The confirmation screen asks if the customer is responsible for the costs and if the vehicle is marked with the 'assistance partner' logo. The user selects 'OK' (highlighted with a red circle). This leads to the signature screen, where the user signs the task. The signature is shown as a large, stylized 'R'.
